

NOTICE OF A CITIZENS' INFORMATIONAL WORKSHOP
FOR THE PORT ACCESS ROAD FEASIBILITY STUDY
FROM THE PROPOSED NORTH CAROLINA INTERNATIONAL TERMINAL
NEAR SOUTHPORT TO U.S. 17

TIP Project No. FS-0803C

Brunswick County

The North Carolina Department of Transportation will hold an informal Citizens' Informational Workshop for the above study on Tuesday, July 13, 2010 between the hours of 4 p.m. and 7 p.m. at South Brunswick High School in the cafeteria, located at 280 Cougar Drive in Boiling Spring Lakes.

The purpose of this workshop is for NCDOT Feasibility Study Team representatives to provide information, answer questions and accept written comments regarding the study. A feasibility study is a preliminary document that is the initial step in the planning and design process for a proposed project and not the product of exhaustive environmental or design investigations.

The purpose of this study is to describe the proposed project including cost, and identify potential problems that may require consideration in the planning and design phases. The study team will evaluate multi-lane access to and from the new port near Southport. This will include an assessment of upgrading the existing highway network as well as a possible new roadway.

For more information, contact Derrick Lewis, 1534 Mail Service Center, Raleigh, NC 27699-1534, by phone at (919) 715-5572, fax at (919) 733-2039 or e-mail at dlewis@ncdot.gov.

NCDOT will provide auxiliary aids and services under the Americans with Disabilities Act for disabled persons who want to participate in this workshop. Anyone requiring special services should contact Lewis as early as possible so that arrangements can be made.
